

## Math 1090 Textbook Information

Textbook (available in e-book Format): ***Business Algebra***

3rd edition, by Kelly MacArthur, published by Kendall Hunt

**ISBN: 978-1-5249-9340-5**

### **E-book:**

You will need to purchase the textbook, to be used every week for homework. The most inexpensive option is the e-book (intended to save students lots of money), which is only around \$43. If you prefer a printed version of the text, it will cost around \$98. If you purchase the e-book, you'll be able to print pages from the book, on a limited basis, but certainly enough to do the homework.

To purchase the textbook, please go to

<https://he.kendallhunt.com/product/business-algebra-4>

for the best deal.

If you purchase the book elsewhere, please be sure it's the 3rd edition, otherwise, some of the homework problems will be wrong and there are still many errors in the 2nd edition that the 3rd edition fixed.

### Additional Notes:

- Buying a physical book is expensive and not necessary, because you have access to the E-book. You will be able to print a certain number of pages from the E-book for personal use. If you would prefer to work with a physical book, there are copies of the textbook to borrow at the Marriot library (reserve desk) and the math tutoring center. If you really want to buy the book in print, please contact Rebecca Noonan Heale at [rebecca@math.utah.edu](mailto:rebecca@math.utah.edu) so we can coordinate that.
  
- If you need to purchase course materials specifically through the U of U campus store for your scholarship or funding source, please contact the course coordinator, Rebeca Noonan Heale, at [rebecca@math.utah.edu](mailto:rebecca@math.utah.edu).
  
- You may be allowed to use a scientific calculator to use on some exams. (Check with your instructor.) Programmable, graphing or internet-connected calculators will be allowed on exams. These calculators all meet the requirements:  
<http://www.math.utah.edu/schedule/bookInfo/m1090ApprovedCalculators.pdf>
  
- If you have any problems, please contact your instructor OR the course coordinator, Rebecca Noonan Heale, [rebecca@math.utah.edu](mailto:rebecca@math.utah.edu). They'll do their best to help you and advocate for you, should you need that.
