

Math 3410: Statistics for Secondary Mathematics Teachers  
Textbooks

The following three books (either paperback or e-book) are required for Math 3410:

1. *Developing Essential Understanding of Statistics, Grades 6-8*. National Council of Teachers of Mathematics.
  - e-Book ISBN: 978-0-87353-853-4
  - paperback ISBN: 978-0-87353-672-1
2. *Developing Essential Understanding of Statistics, Grades 9-12*. National Council of Teachers of Mathematics.
  - e-Book ISBN: 978-0-87353-852-7
  - paperback ISBN: 978-0-87353-676-9
3. *Putting Essential Understanding of Statistics into Practice, Grades 9-12*. National Council of Teachers of Mathematics.
  - e-Book ISBN: 978-0-87353-737-7
  - paperback ISBN: 978-0-87353-737-7

The e-Books can be purchased through the publisher, the National Council of Teachers of Mathematics (NCTM) at <https://www.nctm.org>, and the paperbacks can be purchased through the NCTM or other online book sellers. If you choose to purchase these books via NCTM, the costs are as follows (as of June 2019):

Textbook	Paperback		e-Book	
	Non-Member	NCTM Member	Non-Member	NCTM Member
<i>Developing E.U. 6-8</i>	\$36.95	\$25.87	\$25.86	\$18.10
<i>Developing E.U. 9-12</i>	\$32.95	\$23.07	\$23.06	\$16.14
<i>Putting E.U. Practice 9-12</i>	\$36.95	\$25.87	\$25.87	\$18.11
<b>Total Cost</b>	<b>\$106.85</b>	<b>\$74.81</b>	<b>\$74.79</b>	<b>\$52.35</b>

While it is not required, it is highly recommended that you create an NCTM account at <https://www.nctm.org> and purchase these e-Books; better yet, it is recommended (though not required) that you join the NCTM professional organization at the reduced student rate of **\$49**, which will give you 30% discount at the NCTM store. While this \$49 student membership fee does not quite offset the cost of these textbooks (do the arithmetic!), membership does get you the following additional benefits:

- complimentary registration for the NCTM Regional Conference (which happens to be held here in Salt Lake City on October 16-18, which happens only every several years);
- access to three digital journal archives of your choice;
- access to digital formats of *Mathematics Teacher Educator*—which has useful lesson ideas—and *Journal for Research in Mathematics Education*.

Note that if you choose to become a student NCTM member, you are expected to become a regular member upon graduation. The NCTM is the largest and most significant professional organization for mathematics teachers in the U.S. and Canada, and our national and state instructional principles and practices are driven by this professional organization.

Please consider this information when deciding how you would like to purchase your textbooks for Math 3410.
