The exam covers chapters 6-10...basically everything we have covered in this class.

You can bring one 8.5 x 11 inch paper of notes (on both sides, if you want) to use as a reference. You will also need a basic scientific calculator for this exam (that you will only be allowed to use for the "calculator only" section). You are welcome to bring something smaller than a piece of paper for reference, but you will not be allowed to use several note cards, for example, that you think totals the area of one piece of paper.
